ZAMORI SHOWER TRAYS

QUALITY SPECIFICATIONS

- Anti-Slip - The Zamori anti-slip option features the highest possible anti-slip rating. The anti-slip surface is embedded into the tray material during the manufacturing process. This gives a high quality look and feel compared to most other anti-slip trays, where the anti-slip surface is applied after production
- Antibacterial - All Zamori trays are impregnated with a bacteria and mould lighting “Zemoic” agent. The antibacterial property of Zamori trays means increased hygiene and easier cleaning
- Patent Re-inforcement - Zamori trays are acrylic capped and feature a patented steel reinforcement frame within the tray. This ensures strength, rigidity and a lifetime of use

2 Year Guarantee THERMOSTAT

Combining underfloor heating and antifracture mat, this brilliant product from Redroom could save you significant money and time in fitting.

It really is as easy as 1,2,3.

Step 1

Redroom decoupling membrane goes down on the floor.

Step 2

Underfloor heating wire is spaced out within the guides on the membrane.

Step 3

It's now ready for tiling and as you would expect the membrane gives ultimate antifracture protection against tiles cracking that may occur due to settling and movement of the substrate underneath.

CLOSE COUPLED SENSOR FLUSH KITS

With a simple wave of the hand, hygienic, contactless flushing is now here for close coupled WCs. Two sizes are available depending on the size of the flush button hole in the cistern lid. The button kits have been designed to retro-fit to existing WCs which have paddle operated flush valves. For cisterns which have pneumatic or cable operated flush valves, or where the button screws in directly to the flush valve, then the flush valve will also need to be swapped to our TR9033 valve which has a 2" base.
